| 2 | PRESENTATION | JANUARY 2016 |

Energy efficiency in Residential Buildings (signed in December 2015)

- Energy efficiency retro-fitting of residential buildings in France
- EIB financing under EFSI: **EUR 400 million**
- Total investment expected: **EUR 800 million**

Capenergie 3 Fund (signed in July 2015)

- Investing in small to medium-sized renewable energy projects in France and across the EU
- EIB financing under EFSI: **EUR 50 million**
- Total investment expected: **EUR 1 billion**

Investment Fund TRI Nord Pas de Calais (signed in December 2015)

- Investing in the low carbon economy in the Region of Nord-Pas de Calais in France
- EIB financing under EFSI: **EUR 15 million**
- Total investment expected: **EUR 205 million**

Renewable energy projects guarantee (approved, not yet signed)

- Risk-sharing facility for renewable energy projects in Germany and France

Infrastructure fund (under assessment)

- Equity fund which will invest in transforming former industrial sites into uncontaminated and habitable areas

| 3

Two high speed broadband projects (under assessment)

- Rolling out high-speed fibre broadband in rural and remote areas of France

Transport infrastructure (under assessment)

- Construction of a motorway to ease city-centre traffic

The challenge now : to mobilise the local authorities (especially at the regional scale)
