

JOIN THE EXCEL4HOUSING 4.0 ROUNDTABLE SERIES!

Be part of Europe's transition toward Housing 4.0!

The EXCEL4Housing 4.0 consortium is delighted to invite you to a series of three expert roundtables exploring the green, digital, and circular transformation of the European construction and housing sector. These high-level discussions will gather policy-makers, VET providers, academics, researchers, and industry experts to validate the project's research findings and co-shape the roadmap for future skills, innovation, and excellence in the sector.

1

Roundtable 1: Energy Efficiency & Decarbonization in Buildings - Challenges and Upskilling Needs

 23 October 2025 |  10:00–13:30 CET |  Online

Join experts from across Europe to discuss the upskilling and compliance challenges posed by EU initiatives and explore how to equip professionals, from engineers to contractors, with the skills needed to meet Europe's decarbonization goals.

 Registration: [HERE](#)

2

Roundtable 2: Digital Transition - Digitalization in Construction

 31 October 2025 |  9:30–13:00 CET |  Online

This session will explore how digital tools and methods can transform processes, foster innovation, and build the digital skills needed across all construction professions.

 Registration: [HERE](#)

3

Roundtable 3: Green Transition - Circular Economy in Construction

 4 November 2025 |  10:00–13:30 CET |  Online

This roundtable will address circularity in construction and housing, discussing how to close material loops, design for reuse, and create training pathways for circular skills across all occupational levels.
